

HOST UNIVERSITY GUIDE

2018-2019 CIVIL SOCIETY LEADERSHIP AWARDS

CSLA Host University Partnerships

We work with a wide range of universities which offer quality instruction in the social sciences and humanities and share our commitment to open society values. These universities have agreed in advance to provide significant tuition discounts for CSLA candidates, and they actively participate in our selection process. Our university partnerships enable us to cluster grantees at institutions, which we value, and we therefore prioritize our established partners when we match CSLA finalists to MA program options in their field of study. Although the list changes yearly, partners in 2017 included universities in Europe, the UK and the US and some parts of Asia.

Scholarship Programs staff will arrange placements for successful CSLA candidates in cooperation with our host university colleagues. Finalists are matched with universities according to their chosen area of specialization, overall academic profile including language test scores, and professional aspirations. Final decisions concerning host university placement are made by the CSLA program staff, factoring in input from the international selection committee and host university staff and faculty. All placements are made in conjunction with the host universities, and candidates must meet their standards for graduate studies admission, which differ from university to university. Please note that placement decisions sit with CSLA staff and are final.

In some cases, you will need to apply to a CSLA host university directly. Finalists who are being considered for placement at universities in Hong Kong, France, Germany, Hungary, The Netherlands, or the UK will be asked by CSLA staff or staff from our host universities or host organizations (e.g. DAAD), to complete additional application forms. There will be no fee for submitting these applications. CSLA staff will advise you of the need to apply and work with you on this process. Please note that if you apply directly to a university without prior instruction from CSLA staff, we will not be able to reimburse the application costs.

Additionally, admission to a university does not guarantee placement at that university. CSLA staff will guide finalists through the placement process, but it is important to note that placement decisions sit with CSLA staff and are final.
