### **UN / South Sudan Topping Camp**

A UN spokesperson said that, "we are very much aware" of the health risks posed by the upcoming rainy season in South Sudan and that it was a "huge logistical challenge" to run a peacekeeping mission and "also take care of these thousands and thousands of people." The comments came after a news report which criticized the UN Mission in South Sudan for not moving 21,000 displaced people fast enough from a UN base to safer grounds before the rainy season.
